INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Willacy County Drainage
District No. 2
Raymondville, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and the major fund of Willacy County Drainage District No. 2 (the "District"), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and the major fund of Willacy County Drainage District No. 2, as of December 31, 2025, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Willacy County Drainage District No. 2, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

WILLACY COUNTY DRAINAGE DISTRICT NO. 2
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2025

This discussion and analysis of Willacy County Drainage District No. 2's financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2025. The MD&A should be read in conjunction with the District's basic financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These provide information about the activities of the District as a whole and represent a long-term view of the District's property, obligations, and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short-term, as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for ad valorem tax assessments and the non-appropriated budget.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements of the fund financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the most recent year by \$1,904,248 (net position). Of this amount \$1,779,262 (unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors.
- This District's total net position increased by \$191,981.
- As of the close of the current year, the District's governmental funds reported combined ending fund balances of \$1,538,443. An increase of \$244,384 in comparison with the prior year. \$1,538,443 is *available for spending* at the District's discretion (*unassigned fund balance*).

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 7. Its primary objective is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities while the Statement of Activities includes all the income and expenses generated by the District's operations during the year. These apply the accrual basis of accounting, which is the same method used by most private sector companies. All of the current year's income and expenses are taken into

MANAGEMENT'S DISCUSSION AND ANALYSIS

December 31, 2025

account regardless of when cash is received or paid. All the District's assets are reported whether they serve the current or future years. Liabilities are considered whether they must be paid in the current or future years. These two statements report the District's net position and changes in them. The District's net position (the difference between assets, liabilities, and deferred inflows) provides one measure of the District's financial health or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To assess fully the overall health of the District; however, you should consider non-financial factors as well, such as the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, the District has one kind of activity:

Government Activities – The District's basic services are reported here, including operating expenditures. Ad valorem taxes finance these activities.

Reporting the District's Governmental Funds

Governmental Fund – The District reports its basic services in the general fund. This fund uses modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash), and it reports balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the reconciliation statements in the basic financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental activities.

Net position of the District's governmental activities increased from \$1,712,267 to \$1,904,248. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – increased from \$1,587,281 to \$1,779,262 at December 31, 2025.

This increase in governmental net position was the net result of four factors. First, the District's revenues exceeded the expenditures by \$244,384. Second, the District's net position was decreased by miscellaneous reclassifications of income by \$52,403.

MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2025

The following table reflects a summary of Net Position compared to prior year.

MANAGEMENT’S DISCUSSION AND ANALYSIS

December 31, 2025

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At December 31, 2025, the District had approximately \$124.987 (net of accumulated depreciation) invested in a broad range of capital assets, including land, structures, and improvements and equipment.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGES AND RATES

The District’s elected and appointed officials considered many factor when setting the year 2026 budget. The District expects revenues to equal expenditures for the year 2026.

CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the District’s finances and to show the District’s accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the District Administration Office, at P.O. Drawer 20, Lyford, Texas, 78569.

WILLACY COUNTY DRAINAGE DISTRICT NO. 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Creation of District

The Willacy County Drainage District No. 2 was organized as a drainage district in 1969 under the provisions of Section 53, Texas Water Code.

2. The Reporting Entity

The Board of Directos (the “Board”), a five member group, has governance responsibilities over all activities related to the Drainage District. The District is a financial reporting entity as defined by the Government Accounting Standards Board (GASB) in its Statement No. 14, “The Financial Reporting Entity”, since the board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. There are no component units included within the reporting entity. The District receives funding from local sources and must comply with the requirements of this funding sources.

3. Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District’s activities. *Governmental activities* include operations supported primarily by tax assessments.

The fund financial statements provide reports on the financial condition and results of operations for the general fund.

4. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Income is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Tax assessments are recognized as income in the year for which they are levied.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities, deferred inflow of resources and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The District considers taxes as available if they are collectible within 60 days after year end.

WILLACY COUNTY DRAINAGE DISTRICT NO. 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

The District's accounts are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which are comprised of each fund's assets, liabilities, equity, revenues, and expenditures. The District reports the following major governmental fund:

General Fund – The General Fund is used to account for financial resources used for general operations. It is the basic fund of the District and covers all activities. Any fund balances are considered resources available for current operations.

5. Other Accounting Policies

1. Cash includes cash on hand, in bank checking and savings accounts, and bank certificate of deposits with maturity dates of less than 90 days.
2. The District records purchases of supplies as expenditures. If any supplies are on hand at the end of the year, their total cost is recorded as inventory and the fund balance is restricted for the same amount.
3. Capital assets, which include land and easements, are reported in the applicable governmental activities' columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of the donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The term of the lease must be the non-cancelable period during which the City has the right to use the tangible assets of another entity plus any periods in which either the lessee or the lessor has the sole option to extend the lease if it is reasonably certain the option will be exercised plus any period in which either the lessee or the lessor has the sole option to terminate the lease if it is reasonably certain the option will not be exercised by that party and must not meet the definition of a short-term lease under GASB 87.

4. Certain prepayments to vendors reflect costs applicable to future accounting period and are recorded as prepayments within the deferred expenditures (expenses) line in both government-wide and fund financial statements.

WILLACY COUNTY DRAINAGE DISTRICT NO. 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

5. The Drainage District follows these procedures in establishing the budgetary data reflected in the financial statements:
 1. Prior to September 1, the General Manager submits to the Board of Directors a proposed operating budget for the year commencing the following January 1. The operating budget included proposed expenditures and the means of financing them.
 2. Public hearings are conducted to obtain taxpayer comments.
 3. Prior to January 1, the budget is legally enacted by Board approval.
 4. The General Manager is authorized to change the spending of budgeted amounts between expenditure categories within the General Fund however, any revisions that alter the total expenditures of the General Fund must be approved by the Board of Directors.
 5. Formal budgetary integration is employed as a management control device during the year for the General Fund.
 6. The official Non-Appropriated Budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP). The budget for the General Fund was not amended during the year.

6. Encumbrance Accounting

Encumbrance accounting which uses purchase orders, contracts and other commitments for the expenditure of resources is not utilized in the Governmental Fund of the Willacy County Drainage District No. 2. Expenditures are recognized when the goods purchased are received or when services have been performed.

7. Fund Balance Policies

The District has classified its fund balances in the following classifications:

Nonspendable	
Restricted	
Committed	
Assigned	
Unassigned	\$ 1,538,443

The Board of Trustees is the District's decision making authority for both committing and restricting fund balances.

The Board of Trustees must by formal board action establish, modify or rescind a fund balance commitment. When the District incurs an expense for which it may use either restricted or unassigned assets, it uses the restricted assets first unless unassigned assets will have to be returned because they were not used.

WILLACY COUNTY DRAINAGE DISTRICT NO. 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

8. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

9. Deferred Outflows/Inflows of Resources

Unavailable tax assessment revenues are classified as deferred inflows and are defined as an acquisition of net assets by the District that is applicable to a future reporting period.

NOTE B – DEPOSITS AND INVESTMENTS

Legal and Contractual Provisions Governing Deposits and Investments

Custodial Credit Risk for Deposits State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount of deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with law, it has no custodial risk for deposits.

Compliance with the Public Fund Investment Act

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the area of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity data for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. Agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also required the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

WILLACY COUNTY DRAINAGE DISTRICT NO. 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025

NOTE B – DEPOSITS AND INVESTMENTS – (Continued)

Policies Governing Deposits and Investments

In compliance with the Public Funds Investment Acts, the District had adopted a deposit and investment policy. That Policy does address the following risks:

- a. Custodial Risk – To limit the risk that an issues or other counterparty to an investment will not fulfill its obligation the District limits investments to Certificates of Deposit and Bank Money Market Savings Accounts.
- b. Custodial Credit Risk for Investments – All of the District’s investments are registered in the District’s name; therefore, the District is not exposed to custodial credit risk.
- c. Concentration of Credit Risk – As of December 31, 2025, none.
- d. Interest Rate Risk – To limit the risk that changes in interest rates will adversely affect the fair of investments, the District requires investments to have maturities of less than one year on a weighted average maturity basis.

NOTE C – AD VALOREM TAXES

Ad valorem taxes are levied by October 1. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which levied. On January 1 of each year, a lien is attached to property to secure the payment of all taxes, penalties and interest ultimately imposed.

NOTE D – DELINQUENT TAXES RECEIVABLES

Delinquent taxes are accounted for in the General Fund. Allowances for uncollectible tax receivables accounts within the General Fund are based on historical experience in collecting taxes.

NOTE E – CAPITAL ASSETS ACTIVITY

Capital asset activity for the District, for the year ended December 31, 2025, was as follows:

	Beginning Balance 12-31-2024	Additions	Deletions	Ending Balance 12-31-2025
Governmental Activities:				
Land and easement	\$ 124,987	\$ -	\$ -	\$ 124,987
Total at historical cost	\$ 124,987	\$ -	\$ -	\$ 124,987

NOTE F – PENDING LITIGATION

The District currently has no pending litigation and is not aware of any litigation.

**WILLACY COUNTY DRAINAGE DISTRICT NO. 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025**

NOTE G – PENSION COVERAGE FOR DISTRICT EMPLOYEES

The District has no employees and, therefore, no pension plan.

NOTE H – DEFERRED INFLOWS OF RESOURCES

Deferred Inflows of Resources at December 31, 2025, consisted of the following:

	<u>General Fund</u>
Net ad valorem taxes	\$ 240,819
TWDB	<u>80,518</u>
	<u><u>\$ 321,336</u></u>

NOTE I – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage of, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. The District is a member of the Texas Farm Bureau, which provides liability and property coverage for the District.

The District continues to carry commercial insurance for the risks of loss from employee dishonesty and for the bonding of its directors. There have been no claims resulting from these risks in any of the past three fiscal years. There has been no significant reduction in insurance coverage from coverage in the prior year.

NOTE J – SUBSEQUENT EVENTS

Subsequent events have been evaluated through August 26, 2026, which is the date the financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the financial statements would be required.
